

CREDIT RESOURCE CORP.

Programs, Fees & Payment Options

At CRC, we are direct and honest. We realize that for many consumers paying for Credit Improvement may be difficult to justify, so we like to address this issue right up front. It is important to us that we make sure our clients are content and comfortable with our fees and we do that by helping prospective clients establish what the benefits of improving their credit would be to their lives.

For instance, from a financial aspect, if your credit scores are below 740, you could be paying anywhere from \$400 to \$1400 more per month on your mortgage payment. And with the new Loan Level Price Adjustments that have recently been implemented by Fannie Mae and Freddie Mac, carrying a FICO score of less than 680 could cost you an extra 2% upfront on a loan. That's an additional \$6,000 on a \$300,000 loan amount. The cost of our program will be covered within the first 1-3 months of your new mortgage, and you will save thousands of dollars over the life of the loan. Or, in the instance that we can help you have duplicate, inaccurately reported, or expired collections removed from your reports, we can save you thousands of dollars. Every year, consumers are bullied into paying millions of dollars to unethical collection companies who don't have the right to collect any longer, but because they use threats of lawsuit or garnishment, consumers feel that have no other option than to pay.

If you would really like to know the true cost of credit, which, without a doubt consists of over 25 items, you can [click here](#), or download the document from our site under the Download section.

When considering how much consumers are spending on mortgage interest rates, auto loan interest rates, credit card interest rates, auto insurance rates, higher Private Mortgage Insurance costs, inaccurately reported accounts, there is no question that financially, we can create a case for consumers to invest in hiring a professional service any day. But at CRC, our priority is helping to give our clients the ability to live an American Dream that otherwise they may not have been able to enjoy, like buying a home, passing a background check for the job of their dreams, or being able to borrow money to send their kids to college. If you asked yourself how much you would pay for Financial Freedom, what would that dollar amount be? This is when the value of investing in the right Professional Company to help improve your credit becomes immeasurable! Your investment will always be returned ten-fold.

PROGRAM 4: BK RELIST ADD ON - \$250.00 (individual) \$400.00 (individual/spouse)

(For clients who have a BK that they believe is being reported inaccurately) After bankruptcy, many credit reports often retain inaccurate information. In many cases, debts that were discharged and were supposed to have the obligations (amounts due) updated by the creditors and/or the credit bureau(s) are not updated correctly on the consumer's credit file, which can result in one's credit being damaged further. Accounts discharged in bankruptcy may also end up being incorrectly reported by collection agencies as new negative obligations with balances owing. This misrepresentation of information may further negatively impact the consumer's life as well as their credit reports and credit score, affecting employment background checks and housing opportunities.

CRC will conduct an audit against your credit reports using your Bankruptcy Paperwork, looking for inaccurate information to determine if you have any "trade lines" (accounts) appearing on their credit reports that indicate erroneous past due balances owing, open charge offs, outstanding collections, and duplicate collections, even though these obligations and their balances were discharged via bankruptcy. Making these corrections to one's credit report can go a long way toward reestablishing good credit and improving credit scores.

PROGRAM 5: 90-Day Individual Credit Improvement & Education Plan - \$495.00

For those borrowers who have credit scores over 680, with one or two credit challenges keeping you from successful loan approval, or from qualifying for a loan at affordable interest rates, you may qualify for CRC's 90-Day program. The program includes the Initial Consultation & Free Pre-Evaluation; the In-Depth Credit Profile Evaluation Fee & Educational Resources; and a 90-Day Credit Improvement Program. Please note that CRC will not enter you into this program if your credit scores are under 680, or if you have more than 1-2 derogatory items reporting that need to be addressed.

PROGRAM 6: MEMBERSHIP EXTENSION OPTIONS

Based on the amount of work to be done on your file, if you feel that you want CRC to continue working with you to improve your credit profile and scores further after the initial 6-month membership, you can extend your membership in increments of 1, 3 or 6 months. You must let CRC know within 30 days of receiving your closing statement of your decision to extend your membership. Note: Extension options apply to 6 month and 90-day programs only. Here are the fees:

- Month-to-Month Extension: \$135.00/Individual - \$225.00/Individual+1
- 90-Day Extension: \$375.00/Individual - \$625.00/Individual+1
- 6-Month Extension: \$700.00/Individual - \$1150.00/Individual+1

PROGRAM 7: Debt Negotiation Services

Debt Negotiation is when you make an agreement with a creditor to pay a lump sum amount for a bad debt that is less than the amount you actually owe. Debts can be negotiated for between 30-60% of the original debt, however, you must be able to make the lump sum payment at the time of negotiation. You are a candidate for Debt Negotiation if:

- ✓ You are still current on accounts, but are just about to go into default for a long period of time due to financial hardship (loss of job, medical crisis, divorce). It is true that most creditors make it very difficult to negotiate debts that are still open active accounts, but we have seen many successful negotiations done before the account is actually in default. This is especially doable if you are upside down in your mortgage payments.
- ✓ You are already delinquent on accounts by a few months and do not foresee being able to catch up any time soon.
- ✓ You have accounts that have already been charged-off or sent to collections.
- ✓ You are being threatened by lawsuit or judgment.

Debt negotiation is a strategic and a time-consuming process, and is easier to accomplish with limited emotional attachment involved. Collection agencies are ruthless, and will go to any extent to scare you into thinking that they will take away everything from you if you don't pay your debt in full today on their terms. This is not true, however at CRC we know how intimidating it can be.

If you are ready to pay down your charge-offs, collections and unpaid judgments, and you don't have the time, or energy to face down the collection agencies or creditors on your own, CRC can do it for you. Here are our fees for Debt Negotiation:

- File Set Up Fee: \$295.00 (however, if you are in one of CRC's 6-Month Programs, this fee will be waived)
- 10% of the amount saved on debts which have a total due over \$10,000.
- 15% of the amount saved on debts which have a total due under \$10,000.
- 2.5% of the total debt on debts that we have removed completely due to illegal reporting, etc. (The 2.5% is to cover the labor of battling with the creditor.)

If you are interested in Debt Negotiation Services, please contact CRC so that a specialist can give you an estimate of how much it will cost you to negotiate down your existing past due debt. This service also requires a different CRC agreement.

PROGRAM 8: Big Score Analysis & Take Action Plan - Doing It On Your Own: \$225.00

This product is for those individuals who would like to work on their credit challenges without hiring a professional to help. The package includes an in-depth evaluation of your current credit profile conducted by a CRC Credit Specialist. This will be presented to you in the form of a 10-15 page Analysis Report, which will also become your Take Action Plan for improving your current credit situation. You will also receive a copy of [Linda Ferrari's Book, The Big Score](#), which will give you the tools you need to successfully carry out your Take Action Plan. If you are going to tackle the credit system on our own, this package will help you avoid the most common disputing mistakes that can cost you up to 100 credit score points.

If after receiving your Big Score Analysis, you feel that the credit challenges are too much to handle on your own, CRC will deduct the above fee from one of following Credit Improvement Programs less a \$50.00 to cover costs. This package does not include a free credit consultation, however a CRC Credit Specialist would be happy to spend a few minutes on the telephone with you to help you decide whether or not this is a good option for your current situation.

Note: If you decide to hire CRC after you have already started disputing directly with the bureaus and creditors, the guarantee will not apply as defined above on Page 2.
